- [Productions Made in Chicago](#) [2]

There is a new movie due to be filmed in Chicago Summer 2012. "Deacon's Choice" is described as a powerful story that embodies the trickle effect of selfishness, cover ups, addiction and consequence with intensity just as stimulating as "Requiem for a Dream" & "Black Swan." This compulsive tale of a family's secret reminds us that life for each of us has its own individual journey. Through that journey there are "choices" which some define as hereditary privilege and even option.

Moral judgments are something human beings deal with in many lengths. The depths of which some people will explore are becoming visibly astonishing creating a whirlwind of higher profile dreams being shattered, spiraling for hypocrisy while harboring repercussions of such actions. This stigma only points out a grave weakness in modern society.

"Deacon's Choice will further drive the recreation of film watching, delivering outstanding originality that will hugely inspire recovery within all nationalities.
