Teleportation. Mind control. Invisibility. Astral projection. Mutation. Reanimation. Phenomena that exist on the Fringe of science unleash their strange powers in this thrilling, critically-acclaimed series, as Warner Home Video releases Fringe: The Complete First Season on DVD and Blu-ray™ Hi Def on September 8, 2009 for \$59.98/ \$79.98.

Featuring a collectible lenticular slipcase, and packed with nearly 6 hours of special features, including featurettes, production diaries, producer and writer commentaries, deleted scenes, gag reel, Blu-Ray exclusive content and much more, this is one release that fans definitely won't want to miss this fall. The release is timed to the premiere of Season 2 on FOX.

From J.J. Abrams (Lost), Alex Kurtzman and Roberto Orci (the team behind Star Trek, Mission: Impossible III and Alias) and executive producers Jeff Pinkner and Bryan Burk (both of Lost and Alias), Fringe revolves around three unlikely colleagues – a beautiful, young and determined FBI agent (Anna Torv), a brilliant but off-the-wall scientist (John Noble), and his sardonic, roguish son (Joshua Jackson) – who team up to investigate a series of peculiar deaths and disasters known as “The Pattern.” The trio suspects that someone is using the world as a laboratory. And many of the clues lead them to Massive Dynamic, a shadowy global corporation that may be more powerful than any nation. Season 1 also starred Lance Reddick, Kirk Acevedo, Blair Brown, Jasika Nicole and Mark Valley . Fringe is from Bad Robot Productions in association with Warner Bros. Television.

Fringe has been showered with critical accolades, named as one of the 10 Best TV Shows of 2008 by Entertainment Weekly, and was nominated for a 2009 Writers Guild Award for Best New Series. In addition, the show has achieved ratings success, averaging more than 10 million viewers a week and ranking as the top new show among Adults 18–49 in its first season.*
