CHICAGO – Richard Ayoade's debut comedy "Submarine" has such an incredibly strong first half that it almost makes the relative disappointment of the second half even more disappointing by comparison. A super-smart ending saves the piece from going out on the wrong note completely and the overall piece bodes well for whatever this talented director does next. Whatever flaws the film may have, it's certainly unlike anything else in theaters right now and yet will likely remind certain viewers of beloved films like "The Graduate," "Harold and Maude," and "Rushmore."

Based on the coming-of-age novel by Joe Dunthorne, "Submarine" centers on the crisis of cynicism vs. sentimentality that often faces us at a formative age. One minute it's not "cool" to be in love, the next you're writing poetry. One minute, you're aware that being a bully is a bad thing, the next minute you're doing it to make a pretty girl like you. Male adolescence is a series of contradictions and discoveries and the best of "Submarine" offers a unique perspective on those crazy days.

Our hero through this tumultuous time is Oliver Tate (Craig Roberts), a bizarre young man who seems concerned about everything but is at that age where concern isn't cool. He's noticed that his parents (Sally Hawkins & Noah Taylor) haven't had sex in some time (through detective work involving the dimmer switch in their bedroom) and isn't quite sure about the New Age douche (Paddy Considine) who just moved in down the street. More importantly, he's begun a relationship with the wicked-smart and possibly-just-wicked Jordana (a great Yasmin Paige) and he's having trouble keeping it all together.

Holding hands, staring into the horizon, and lighting things on fire (Jordana is kind of a pyro) is easy enough but life gets really complicated when it seems like the marriage of Oliver's parents might fall apart at the same time that Jordana's mother might die of cancer. How do you handle adolescence when other issues weigh down on you? Without a hint of sentimentality, "Submarine" actually deals with some pretty intense subject matter, including potential divorce and death.
