Here is the synopsis for “Hugo”:

While on a daring adventure to find his family, Hugo Cabret discovers a robot in the walls of a Paris train station that transports him to a world of wonder, mystery and magic.

There, he and an eccentric girl piece together the mystery surrounding his missing family. They use the robot, a heart-shaped lock and the comical characters they meet along the way as clues and the road map back to where he belongs.

Based on Brian Selznick’s award-winning and imaginative *New York Times* bestseller “The Invention of Hugo Cabret,” this magical tale is Academy Award-winner Martin Scorsese’s first film shot in 3D.

To secure your free advance-screening movie passes and for your chance at winning a book companion, you must be logged into your HollywoodChicago.com Web site account.
