CHICAGO – We’re back with another DVD Round-up of recently released titles that may catch your attention when you’re browsing the DVD store this week. (Do they still have DVD stores?) This time, read this entire piece aloud in a British accent. Once again, these round-ups are designed as informative, to let you know about releases that might not get as much attention and what special features to expect if you pick them up. Having said that, this is a particularly strong round-up. Ricky Gervais, Camelot, and dinosaurs? You really can’t go wrong with any of these choices.

All three titles were released on January 10th, 2012.
