Here is the synopsis for "Chernobyl Diaries":

"Chernobyl Diaries" is an original story from Oren Peli, who first terrified audiences with his groundbreaking thriller "Paranormal Activity". The film follows a group of six young tourists who – looking to go off the beaten path – hire an "extreme tour" guide.

Ignoring warnings, he takes them into the city of Pripyat: the former home to the workers of the Chernobyl nuclear reactor, but a deserted town since the disaster more than 25 years ago. After a brief exploration of the abandoned city, however, the group soon finds themselves stranded – only to discover that they are not alone.
