CHICAGO – Disney/Pixar’s “Finding Nemo” disappointed somewhat when it was recently re-released in 3D with grosses that paled in comparison to 3D reboots of “Beauty & the Beast” and “The Lion King.” Perhaps it’s because the movie was so beautiful in two dimensions that fans didn’t think it needed a third. The new Blu-ray release in time for the holiday season certainly makes the case as this is undeniably one of Pixar’s absolute best.

Rating: **5.0/5.0**

Few films hold up on repeat viewing (and, trust me, as the father of a Pixar-loving toddler, I can say this with experience) as much as “Finding Nemo,” a beautiful tale of letting our children venture out into an unsafe world. It’s visually confident, contains perfect voice work, and a strength of storytelling that matches with the best of the Disney canon. Decades from now, kids will love Nemo the way we loved Snow White, Pinocchio, and the other timeless characters of the Disney archive. And so any Blu-ray release of “Finding Nemo” is a valuable, especially when the company continues to release Blu-rays with perfect HD video and audio. “Nemo” has never looked this good. And choosing to accompany the release with “Knick Knack,” the first short that earned Pixar some attention, was a smart move. It’s an important short and so it makes sense to put on the company’s most important film.
