CHICAGO – "The Way, Way Back" made a solid \$21 million domestically but I kind of expected it to be an even bigger hit when I saw it back in January at the Sundance Film Festival. I saw several dozen films at this year's fest and nothing produced a response like Nat Faxon & Jim Rash's sweet, sentimental comedy. The audience I saw it with LOVED it. And now that it's on Blu-ray and DVD, I expect it to reach an even bigger audience through word-of-mouth recommendations. It's a fun, clever movie with some great performances, including a supporting turn by Sam Rockwell that stands with the best of the year.

Rating: **4.0/5.0**

"The Way, Way Back" doesn't do anything particularly new. It's a classic coming-of-age story in the vein of "The Sure Thing" and "Adventureland." It's the way the story is told, with a very entertaining supporting cast and tender insight about the way children can be more mature than the adults in their lives, that elevates the film. It's not a film that I expect to top anyone's best of 2013 list and yet I have a tough time believing there's anyone who could muster much hatred for the film either. It's the definition of likable. And we could use more movies like it.
