LOS ANGELES – From his chiseled-from-marble good looks to his actor intensity on screen, Kirk Douglas defined the very concept of Movie Star. The actor also broke records for longevity, living to the ripe old age of 103. Kirk Douglas died of natural causes on February 5th, 2020, at his home in Los Angeles.

Douglas was known for his fierce commitment to his craft, and his independent spirit ... he formed his own production company after dissatisfaction with the movie studio system of his era. He made several classic films, even a popular Walt Disney live action feature ("20,000 Leagues Under the Sea"). He was father to Oscar-winner Michael Douglas, as well as three other sons from two marriages (his was married to his second wife for 66 years). He also committed his life to several charitable causes.

I Am Kirk Douglas: The Actor in 'Spartacus'
