Blu-Ray Rating: **5.0/5.0**

CHICAGO – Your Blu-Ray collection should expand by three movies next week when “The Bourne Trilogy” finally hits the format in a beautiful three-disc box with perfect picture and sound and an amazing collection of special features.

Loaded with hours of special features and with some of the best picture and sound that has yet been produced for the format, “[The Bourne Trilogy](#) [14],” including “[The Bourne Identity](#) [12],” “[The Bourne Supremacy](#) [13],” and “[The Bourne Ultimatum](#) [17]” in one collector’s case, is a very early contender for best box set of the year. It’s a must-have for action fans, movie collectors, and nearly everyone with a Blu-Ray player.

The Bourne Trilogy is released by Universal Home Video on January 27th, 2009.

[Matt Damon](#) [10] plays Jason Bourne, a highly trained assassin on the run from a shadowy government agency through three movies, each one better than the film that came before. The first film by [Doug Liman](#) [18] is good but the ones that follow by [Paul Greengrass](#) [11] are two of the best action movies of the last decade. If the Blu-Ray releases were average, they would be must-owns for every action fan just based on the caliber of the films themselves. The fact that these are some of the most impressive Blu-Ray releases yet makes them a must-own for everyone.

The three-disc set is loaded with hours of bonus materials including deleted scenes, interviews, behind-the-scenes featurettes, commentaries and all-new interactive content that takes advantage of Universal's awesome U-Control feature, which allows extra content through Picture-in-Picture and interactive dossiers. Through BD-Live, fans will be able to download even more bonus content, share scenes with friends and play an exclusive strategy game that involves hand-to-hand combat simulation.

Each film is presented in gorgeous HD with English DTS-H Master Audio 5.1 tracks that really amplify the Bourne experience. Bourne movies should be watched with perfect video and booming audio and "The Bourne Trilogy" really delivers. These are some of the best video and audio transfers yet produced on the next-gen format.

As for special features, it's overwhelming. The real draw is the way this franchise makes perfect use of Universal's U-Control system. While you watch the movie, you can immerse yourself in dossiers, behind-the-scenes information, and details about the spy gadgets used in the film. If you have yet to experience the greatness of U-Control, check out the clip below that offers an example of the interactive feature in action:

More clips follow the list of special features. And U-Control is honestly just the beginning.

Bonus features on "The Bourne Identity" include the aforementioned U-Control features, My Scenes, BD-Live and...

- The Ludlum Identity: An extraordinary portrait of the best-selling author through archival interviews with friends, colleagues, family members and Ludlum himself.
- The Ludlum Supremacy: Who is Jason Bourne? A revealing look at how Bourne was born.
- The Ludlum Ultimatum: A fascinating examination of the Bourne character and his enduring audience appeal
- Alternate Opening and Ending: With an introduction by producer Frank Marshall, screenwriter Tony Gilroy and actor Brian Cox
- Deleted and Extended Scenes
- The Birth of the Bourne Identity
- The Bourne Mastermind: Robert Ludlum: A fascinating new look at the late Robert Ludlum, the bestselling novelist who created the "Bourne" trilogy.
- Access Granted: An exclusive interview with screenwriter Tony Gilroy on the challenges of adapting Ludlum's 500-page book for the screen.
- From Identity to Supremacy – Jason & Marie: This feature includes exclusive interviews with Matt Damon and Franka Potente which explore the making of The Bourne Identity - and build a bridge to the spectacular sequel, The Bourne Supremacy.
- The Bourne Diagnosis: Insights into the causes and effects of Jason Bourne's struggle with amnesia from a UCLA psychologist.
- Cloak and Dagger: In this feature, CIA liaison officer Chase Brandon delivers a detailed, real-world analysis of the making of a super-spy.
- Inside a Fight Sequence: Join Matt Damon on the set as he and the film's Stunt Choreographer map out the explosive action-packed U.S. Embassy fight sequence.
- Moby "Extreme Ways" Music Video
- Feature Commentary with Director Doug Liman
