Coraline (voiced by Dakota Fanning) travels through a portal between worlds in the stop-motion animated 3-D adventure Coraline, from LAIKA Entertainment for release by Focus Features.

CHICAGO – This 21-image slideshow contains the official press images for “Coraline”, which was directed by Henry Selick (“The Nightmare Before Christmas”) and features the voice work of Teri Hatcher, Ian McShane, Jennifer Saunders, Dawn French, John Hodgman and Dakota Fanning. The Focus Features release of the LAIKA Entertainment produced film opens on Friday, February 6th, 2009.

Synopsis: “A high-definition stop-motion animated feature - the first to be originally filmed in stereoscopic 3-D - based on Neil Gaiman’s international best-selling book. A young girl (Dakota Fanning) walks through a secret door in her new home and discovers an alternate version of her life. On the surface, this parallel reality is eerily similar to her real life - only much better. But when this wondrously off-kilter, fantastical adventure turns dangerous, and her counterfeit parents (including Other Mother [Teri Hatcher]) try to keep her forever, Coraline must count on her resourcefulness, determination, and bravery to get back home - and save her family.”
