(L to R) Has-been scientist Dr. Rick Marshall (Will Ferrell), research assistant Holly (Anna Friel) and redneck survivalist Will (Danny McBride) arrive at a place of spectacular sights and super-scaled comedy known as the Land of the Lost.

CHICAGO – This 34-image slideshow contains the official press images for “Land of the Lost starring Will Ferrell, Danny McBride, Jorma Taccone, and Anna Friel. The film, written by Chris Henchy & Dennis McNicholas and directed by Brad Silberling, opens on June 5th, 2009.

Synopsis:

“Space-time vortexes suck.

Will Ferrell stars as has-been scientist Dr. Rick Marshall, sucked into one and spat back through time. Way back. Now, Marshall has no weapons, few skills and questionable smarts to survive in an alternate universe full of marauding dinosaurs and fantastic creatures from beyond our world—a place of spectacular sights and super-scaled comedy known as the Land of the Lost.

Sucked alongside him for the adventure are crack-smart research assistant Holly (Anna Friel) and a redneck survivalist (Danny McBride) named Will. Chased by T. rex and stalked by painfully slow reptiles known as Sleestak, Marshall, Will and Holly must rely on their only ally—a primate called Chaka (Jorma Taccone)—to navigate out of the hybrid dimension. Escape from this routine expedition gone awry and they’re heroes. Get stuck, and they’ll be permanent refugees in the Land of the Lost.

Based on the classic television series created by Sid & Marty Krofft, Land of the Lost is directed by Brad Silberling and produced by Jimmy Miller and Sid & Marty Krofft. ”
