CHICAGO – All seven season of the Emmy-winning, groundbreaking "The Shield," easily one of the best programs of the '00s, have been collected into one absolutely gorgeous set for "The Shield: The Complete Series Collection". This time of year usually produces several complete series sets to essentially re-sell already available programs to holiday shoppers. This is one of the best.

DVD Rating: 5.0/5.0

The 88 episodes of "The Shield" have been collection on 28 DVDS, beautifully housed in a 34-page bound anthology book filled with photos, quotes, and a special letter from Shawn Ryan. Purely from a packaging perspective, "The Shield" is one of the most beautiful sets that a TV fan could include on their shelf. Sometimes complete series sets are literally nothing more than the previous releases crammed into one box. That's not the case here as the entire show has been lovingly bound like a book you want to read again.

It's interesting to me that "The Shield" has been bound like a novel because the arc of the show played like one. What happened at the end of episode one - corrupt cop Vic Mackey (Michael Chiklis) killing a fellow police officer - resonated all the way through to the final scene of episode eighty-eight. The writers of "The Shield" masterfully intertwined plotlines through every season of the show. Unlike so many TV programs, actions had consequences in the world of "The Shield," and the entire series plays more like an extended film than a episode series.

From season to season, "The Shield" had its ups and downs. Even the greatest shows of all time had some low moments. But now that we can look back at the entirety of Shawn Ryan's program, it's the highs - including arguably the best series finale in the history of television - that stand out. If you didn't watch "The Shield" or if you were a huge fan and want to revisit it, this set should top your holiday wish list.

"The Shield: The Complete Series Collection" also includes over 63 hours of amazing special features from all seven seasons, along with two exclusive never-before-seen featurettes - "Rampart" (a documentary on the police scandal that inspired "The Shield") and "A Place We Called Home" (a look back at the set of "The Shield").

The only drawback of this release is that it's probably the final word on one of the best shows of the '00s. The show was an underrated, crucial part of the TV landscape of the decade and now it's gotten the collection that it truly deserves.

'The Shield: The Complete Series Collection' was released by Sony Home Video and stars Michael Chiklis, Walton Goggins, David Rees Snell, Jay Karnes, CCH Pounder, Cathy Cahlin Ryan, Laurie Holden, Paula Garces, Glenn Close, Forest Whitaker, and Benito Martinez. It was created by Shawn Ryan. The show was released on November 3rd, 2009. It is not rated.
