CHICAGO – Patrick McDonald of HollywoodChicago.com appears on “The Morning Mess” with Scott Thompson on WBGR-FM (Monroe, Wisconsin) on April 8th, 2021, reviewing the new film “Voyagers,” in theaters now.

Colin Ferrell is Richard, the mission leader of a Noah’s Ark spaceship that is leading a journey from the dying earth to another habitable planet. This will take 86 years, meaning the third generation of the children on board – who were all artificially birthed for strength and brain power – will actually colonize the planet. When the kids become teens 10 years later, a tragedy occurs, and the craft suddenly is up for grabs. The film combines teenage hormones and alpha/beta philosophies.
